

KLEMM.ID

KLEMM your future!

KLEMM.ID connects people who need professional circumcision services with well-trained medical students through harnessing the power of online crowdfunding and donation.

ABOUT

Hi! I'm Eghar Anugrapaksi.
Currently a 4th-year medical student in Faculty of Medicine, Universitas Indonesia and serve as Chief Research and Development Officer of KLEMM.ID.

I found KLEMM.ID with my fellow friends in medical school in February 2019.

BEEHIVE MOOC AND BEEHIVE
ACCELERATOR

Testimonial for BEEHIVE MOOC

“BEEHIVE Massive Open Online Course (MOOC) covers comprehensive and essential entrepreneurial skills, especially for start-up founders. The topics are delivered in the most interesting and exciting way so the learner wouldn't even mind to move a seat. It also provides a great examples which are relevant to the challenge start-up founders faced. ”

- Eghar Anugrapaksi, Founder of KLEMM.ID

BEEHIVE ACCELERATOR

“Start-up founders tend to overconfident with their ideas and concepts. Many start-ups have failed due to this mistakes. However, we are up for a new challenge. Pitching workshop and demo day gave us platform to experiment our ideas, improve our speaking and persuasion skills, and foresee holes at stakes. It was a creative lab for us. We are keen to participate in another session because we believe perfection can only be attained through consistent determination.”

-Eghar Anugrapaksi, Founder of KLEMM.ID
