Binus University

BAKSO SANG JUARA is a culinary based business which prioritizes the original taste of Indonesian food and currently has 2 branches in July 2019. I would like to bring "Bakso Sang Juara" into the reality where Indonesian cuisine can be both taste as good as traditional and western cuisine. I'm expecting that, Indonesian cuisine will show its existence around the world with the presence of "Bakso Sang Juara". Why Bakso Sang Juara? The first reason would obviously be related to price. Bakso Sang Juara has an affordable price which fits all societies. Recently, we are mainly targeted college students who are mostly spending their time deciding what to have for lunch or even dinner with a good taste and affordable price. The next reason is Bakso Sang Juara 100% made from the best processed and safe ingredients. The last but not least and most important is Bakso Sang Juara is free from preservatives and can be safely consumable. As far as we are concerned, we have been getting a good feedback from customers and all societies and we're expecting to gain more trust from the customers and achieve our main goals to present Bakso Sang Juara Internationally. Beehive also supports us to try develop our business until now with representatives from Binus University as Beehive partners. Beehive has a great project for us, a startup business who needs most mentorship and then needs networking for can sustain our business in coming years ahead. I hope Beehive can always have a project like this every year who can make startup business reach the goals. Thank you for Beehive for always supporting us anything. Thank you so much. See you again in the other opportunity.
