Print Me!

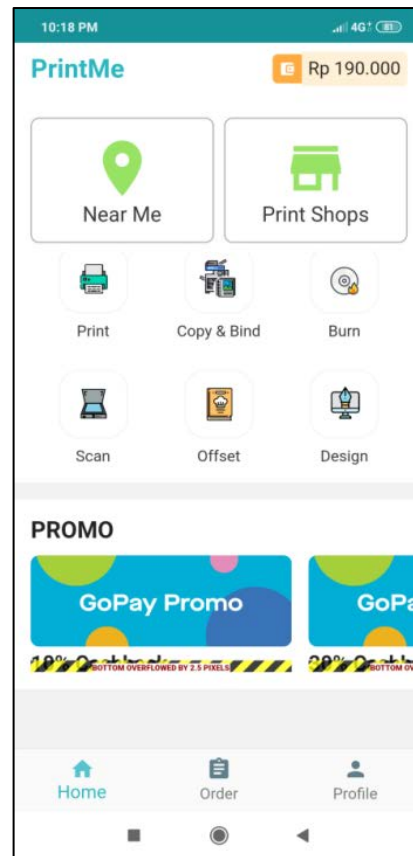

From the Association (PPGI) report, the Indonesia printing market growth is 14.48% worth for IDR 10 Trillion in 2016 (excluding product packaging market). The consumer is from student, individuals, professional to company and institution. The service provider is print shops that are located scattered in big cities and very few open 24 hours.

In Indonesia big cities to reach nearby print shops is challenging in term distance (heavy traffic jam), time (especially at night or urgent occasion) and price (vary from one vendor to another) so we provide the consumer with the solution by developing **e-commerce / marketplace**, an online mobile app for printing services solution that meets consumer with several providers (Print Shops) online named **Print Me**.

The customer can easily order any printing services thru their smartphone or web site (for the company) and the end product will be delivered via courier. The marketing theme: Print anywhere, anytime, delivered to you by courier.

in my opinion while undergoing the beehive program really helped me a lot in the maturation of the business presentation ,and also beehive supports us in various financial aspects in terms of lodging, lunch, until dinner, this is very helpful in mental tranquility when pitching ,therefore we can greatly develop with the support from beehive from all aspects, thank you beehive !!!

The product slogan: Printing Solution at Your Finger Tips.
